**Plan Commission**

City of Waterloo  
136 N Monroe St  
Waterloo, WI 53594

Dear Members of the Plan Commission,

I am writing to formally apply for approval to operate a **window cleaning business** from my residence located at 224 West Porter Street, Waterloo, WI. This business will be conducted as an owner-operator **home occupation**, and I am committed to ensuring full compliance with the applicable zoning regulations.

**Description of the Proposed Home Occupation**

The business will provide residential and commercial window cleaning services in the local area. I will operate this business solely as an individual owner-operator with no additional employees (other than myself or family members) and will utilize only the space within my home and attached garage for the operation of the business.

## Compliance with Home Occupation Guidelines

I understand the requirements for a home occupation in Waterloo, and I affirm that my proposed window cleaning business will comply with the following criteria:

1. **Business Location:**  
The business will be conducted entirely within the enclosed area of my dwelling unit and attached garage, as required.
2. **Exterior Alterations:**  
There will be no exterior alterations made to the structure, and no changes will be made to the character of the dwelling. I will ensure that no exterior evidence of the business, other than a compliant sign, is visible.
3. **Storage of Materials and Equipment:**  
All materials, goods, and equipment related to the business will be stored indoors and will not be visible outside the dwelling or any structures on the premises.
4. **Impact on the Residential Neighborhood:**  
My window cleaning business will not create smoke, odor, glare, noise, dust, vibration, fire hazards, electrical interference, or any other nuisance that would disturb the average residential neighborhood.
5. **Signage:**  
I will use one sign to indicate the business, which will comply with the size limitation of three square feet and will not be illuminated.
6. **Use of Commercial Vehicles:**  
I will only use my personal vehicle for business operations and will not employ any commercial vehicles beyond occasional delivery of materials or equipment.
7. **Business Type:**  
The business is service-oriented (window cleaning) and will not involve the production, sale, or mass distribution of products from my home.
8. **Floor Area Occupancy:**  
The business will occupy no more than 30% of the total floor area of my dwelling unit. That being the attached garage, and a small desk/tool bench located in the basement of our dwelling.
9. **Employees:**  
The business will not have any employees other than myself and immediate family members. No nonresident employees will be involved. .
10. **Excluded Activities:**  
The business will not involve motor vehicle repair or body work, as per the zoning regulations.
11. **Animals:**  
No animals will be involved in the operation of the business.
12. **Other Restrictions:**  
I understand that a home day care or any similar service is not a part of my business.

## Conclusion

I believe my proposed window cleaning business fully complies with the guidelines for a home occupation under the zoning regulations in Waterloo. I respectfully request approval from the Plan Commission to proceed with my business.

If you require any additional information or documentation, please do not hesitate to contact me at 920-650-5349 or [Leary42095@gmail.com](mailto:Leary42095@gmail.com). I appreciate your consideration of my application and look forward to your response.

Thank you for your time and attention.

Sincerely,  
David Leary

## 8. EXPOSURE CONTROLS/PERSONAL PROTECTION

**Engineering Controls:** All ventilation should be designed in accordance with OSHA standard (29 CFR 1910.94). Use local exhaust at filling zones and where leakage and dust formation is probable. Use mechanical (general) ventilation for storage areas. Use appropriate ventilation as required to keep Exposure Limits in Air below TLV & PEL limits.

### Personal Protective Equip:

**Eye/face protection:** When using material use safety glasses and gloves according to HMIS PP, B. All safety equipment should be tested and approved under appropriate government standards such as NIOSH (US) or EN 166 (EU).

**Skin protection:** Handle with gloves made from PVC, Neoprene or Nitrile. Gloves must be inspected prior to use. Use proper glove removal technique (without touching glove's outer surface) to avoid skin contact. Dispose of contaminated gloves according to applicable laws and laboratory practices.

**Body Protection:** Chemically resistant gloves, and safety glasses are recommended. Type of protective equipment should be selected based on concentration amount and conditions of use of this material.

**Respiratory protection:** Full-face vapor respirator may be required as backup to engineering controls when proper engineering controls are not in place to keep TLV and PEL limits below defined thresholds.

**Control of environmental exposure:** Prevent leakage or spillage if safe to do so. Do not let material enter drains.

**§ 385-10.2. Home occupations in residential districts. [Added 7-2-2009 by Ord. No. 2009-09]**

- A. Intent. It is the intent of this section to provide a means to accommodate a small home-based business without the necessity of a rezoning the land area from an R-1, R1-A, or R-2 District to a commercial district. Home occupations are economic activities permitted within any single-family detached residence which comply with the following requirements. Examples include the provision of personal and professional services. Once a home occupation has been approved, it may not be expanded or enlarged.
- B. Requirements. Any individual who desires to locate a home occupation within a dwelling located in one of the residential districts described in Subsection A, shall make written application to the Plan Commission for approval thereof. Said application shall contain complete and accurate description of the proposed home occupation; and such additional information as the Zoning Administrator and/or the Plan Commission may require. In determining whether or not to approve any requested home occupation, the Plan Commission shall be guided by the following criteria:
- (1) The home occupation shall be conducted only within the enclosed area of the dwelling unit or an attached garage.
  - (2) There shall be no exterior alterations of the structure which change the character thereof as a dwelling. There shall be no exterior evidence of the home occupation other than those signs permitted in the district.
  - (3) No storage or display of materials, goods, supplies, or equipment related to the operation of the home occupation shall be visible outside any structures located on the premises.
  - (4) No home occupation use shall create smoke, odor, glare, noise, dust, vibration, fire hazard, small electrical interference or any other nuisance not normally associated with the average residential use in the district.
  - (5) Only one sign may be used to indicate the type of home occupation. Such sign shall not be illuminated and shall not exceed three square feet.
  - (6) The home occupation shall not involve the use of commercial vehicles for more than occasional delivery of materials to or from the premises.
  - (7) Authorized home occupations are restricted to service-oriented businesses and the mass production of items or products or the sale of items or products on the premises is prohibited. Examples of service-oriented businesses include, but are not limited to, computer programming, accounting, law, insurance agencies and computer-based consulting and clerical services.
  - (8) Authorized home occupations shall not occupy more than 30% of the floor area of the dwelling in question.
  - (9) Persons employed in home occupations shall be limited to the resident, immediate family members, and no more than one nonresident employee.
  - (10) Under no circumstances shall a motor vehicle repair or body work business qualify as

an authorized home occupation.

(11) No animals shall be involved in any authorized home occupation.

(12) Home day care is an authorized home occupation so long as it does not involve more than seven children or require state licensing.

C. Conditional uses. Any proposed home occupation which does not satisfy the criteria established in Subsection B above may be authorized by the Plan Commission as a conditional use, subject to the requirements of § 385-21 and the following:

(1) The extent of the equipment or machinery used in the home occupation may be restricted by the Plan Commission.

(2) Sale or transfer of the subject property or the expansion of the approved home occupation shall cause the conditional use permit to terminate.
