**Re: Engineering Services | 2026 Van Buren & Taylor Street Resurfacing**

Dear Mayor,

Please consider this letter a formal proposal for Kunkel Engineering Group to provide professional engineering services for the resurfacing of Van Buren Street and Taylor Street. The proposed services include design, construction -related services, and resident inspection associated with the project.

It is understood that the scope of work includes milling and resurfacing Van Buren Street from W. Madison Street to its terminus, and Taylor Street from Van Buren Street to Harrison Street. As part of the milling operations, the existing base course will be evaluated and, where necessary, undercut and replaced with new base material. Curb and gutter improvements will be completed in areas with drainage deficiencies or where existing concrete has failed. Additionally, all ADA ramps will be upgraded to meet current federal accessibility standards.

As an alternate to the base scope of services and potential alternate within the construction documents, Kunkel Engineering Group also proposes to provide engineering services for Anna Street, from N. Monroe Street to Lum Avenue. This work would include full-depth milling of the existing asphalt, evaluation and repair of the base course, curb and gutter repairs as needed, and resurfacing of the roadway.

For Van Buren Street and Taylor Street, Kunkel Engineering Group proposes to provide the services described above to the City of Waterloo for a maximum not-to-exceed fee of \$22,620.00. This fee includes services through December 2026 to ensure coverage through final project completion and is intended to be comprehensive.

Should the City of Waterloo elect to include the alternate for Anna Street, Kunkel Engineering Group proposes to provide engineering services for an additional fee of \$17,930.00.

Upon your direction, work efforts will be initiated and completed in accordance with this proposal. Should you or the Common Council have any questions regarding this transmittal, please do not hesitate to contact me at your convenience. We appreciate the opportunity to serve the City of Waterloo and look forward to working on this important project.

Sincerely,

**KUNKEL ENGINEERING GROUP**

Mitchell Leisses  
Office/Project Manager
