

WATERLOO FIRE DEPT.

MEETING MINUTES

May 23, 2022

1. Meeting called to order at 7:05pm
2. Signup Sheet Passed Around
3. Minutes from last meeting read and approved
4. Public Comments – Officer Sorensen came to the station and discussed the case where an aerosol canister had been deployed. It was in a confined space. Decon measures were taken by EMS members that responded. The PD only uses OC and a taser. If contaminated get as many clothes off patient before putting in the rig. Wash as much off as possible. Hair would need 2 to 3 washes. Get the rig ventilated as much as possible but do not open windows. Use a large fan to get most of the substance out. Rig will still need to be wiped down thoroughly. Cross contamination will only occur to the mouth and nose. Throat will burn and you will feel it in your eyes. Lay on your back and flush your eyes. Wearing a N95 mask will help from being contaminated. EMS personnel can remove the probes from any tasing that was done. Also remember the bigger the person the worse the reaction will be.
5. Old Business –
 - a. EMS Scheduling – Please get in your required shifts
 - b. Billing Issues – None
 - c. Training Log – Get in missed trainings before the following months training
 - d. Supporters Report – Pancake Breakfast went well. Made around \$7500. Will be having a special meeting with City Hall and our lawyer regarding Members Account
