In the month of March WLOO covered all municipal recordings and listed them to our Cable and YouTube channels. We attended the Waterloo middle school museum night and showcased some of the exhibits on our Facebook page. A new Waterloo Gardens episode featuring Anet Novak was completed and posted to our Youtube channel. We attended the Waterloo Business Association meeting at what is expected to be the new downtown restaurant. At this meeting we extended our services and let the association know we are available to help with marketing if needed. I was given a verbal update concerning the podcast collaboration with parks coordinator Gabe Haberkorn. He stated he is waiting to hear back from the bands that are booked for the upcoming season. Travis Uhlig attended the Easter Egg hunt and created his first video project which you can view on WLOO CATV on YouTube. A local resident had concerns about broadcasting on our local channels 991/992. I had a conversation with the resident advising that the show she's interested in airs on 992 and our Youtube channel which I helped her connect to. All regular station operations were satisfactory in March.

#### Waterloo Cable 991 & 992

Mar 22, 2024, 4:05 PM

to me

Laura, I have been appearing at the City Council meetings lately and also communicating with LaRon Davis about not seeing Waterloo City Council meetings and other Waterloo televised programs on the TV screen. LaRon said to get on the subscribed list and I did and can get all of the above on my computer connection. But I am wondering about all of the senior citizens and others who may not have that access and would like to see programs on Waterloo Cable 991 & 992.

I do not have a Smartphone as many of my senior friends do not have one either. But we do have television screens.

What can I do to encourage WLOO Cable to use Channels 991 & 992 for Waterloo programming as our close neighbors Lake Mills, etc. have clear and informative access to TV Screen local city cable programming?

Please discuss with LaRon and cite any informative motions/laws that are relative to this matter. Is money paid for the blank "One Moment Please, the Channel will be on shortly" or something like that?

Many thanks,

Maureen Giese

to Maureen

Hello Maureen.

It's been years since we communicated with each other. I hope you have been well.

By coincidence (or perhaps not) you're bringing up an item that is already slated to be on next month's WLOO CATV Regulatory Board meeting Agenda. It's time for us to review the programming for channels 991/992.

I'd like to share some things with you in case you're interested in background information about WLOO's current direction and the challenges the station faces.

Like you, I'm a senior too. Of the zillion channels available on Cable TV there were only a few programs we enjoyed, so we decided they weren't worth the constantly increasing charges. We

dumped Cable TV several years ago and are fine with antenna TV. We still use Spectrum for the Internet. This cut our monthly cable bill by 2/3. Many other seniors (and many younger people too) that we know have made the same choices for the same reasons. I've learned this is a growing trend.

Since our viewers are moving away from cable TV in favor of the Internet, in increasing numbers daily, the station has spent a great deal of careful effort to go with the public's wishes and create an online presence. This especially benefits seniors because we can watch live events featuring loved ones on the station's YouTube channel from the comfort of our homes. I don't know about you but I've had my share of mobility issues, as have many of my senior friends. It's nice to be able to stay home on a bad day and not miss out.

The laws state that a percentage of Cable Franchise revenues be paid to local municipalities to maintain public access (PEG) channels. Laws mandate a Regulatory Board must oversee how those funds are spent. PEG channels must broadcast government meetings, as their resources allow. That's the part where some discretion on the part of Station Management and the Board is permitted. WLOO has always broadcasted School Board and City Council meetings, and has recently expanded the service to include Standing Committee meetings, since they occur on the same nights as Council meetings anyway and people were requesting it.

One of the biggest challenges to WLOO and thorn in the station's side for well over a decade has been hardware issues with its cable channels. Without going into excruciating detail, the problem is where WLOO broadcasting equipment connects to Spectrum's hardware. The Spectrum hardware is very outdated and no longer functions properly. It's downright embarrassing. Spectrum won't upgrade the connecting hardware unless WLOO pays them \$30-50 thousand dollars. We don't have that kind of money. And, if the station relocates again, we'd have to pay that fee all over again. We're hoping that as we grow, we will eventually have the budget to put more resources into our cable channels and we're also hoping that Spectrum changes its stance about this connection matter. We've reached out to other PEG channels statewide and many complain of similar problems.

Thanks for reading through all this. I feel better at least for getting it off my chest. I hope you feel your patience was rewarded. The bottom line is that the Board and I agree with you and will look into the matter, but if there's a technology problem on Spectrum's side at the bottom of it there is little we can do other than continuing with our membership in lobbying and advocacy organizations. Frustrating.

Best,

Laura Cotting

# WATERLOO FIRE & RESCUE 900 INDUSTRIAL LANE WATERLOO, WISCONSIN 53594

Wednesday April 3<sup>rd</sup>, 2024

On Monday March 4<sup>th</sup>, 2024 we had our monthly Operators training. Training was on relay pumping and city pumping operations. Relay pumping is when one engine pumps to another from a hydrant. Communication is very important so the pumps are working together to get the most water out of the system. Went over city pumping operations and the locations where we are not able to use hydrants.

On Monday March 11<sup>th</sup>, 2024 we had our monthly EMS training. Medical Director and EMS Training coordinator from Aurora Summit came for the quarterly training. They went over hazmat situations and how to use the Emergency Response Guide book. We also completed scenarios in group for different types of hazardous materials that were spilled or leaking.

On Monday March 18<sup>th</sup>, 2024 we had our monthly Fire training. Training was on maintenance. Got all ground ladders down and cleaned, inspected and made sure everything was working properly. Went through the back row fleet for inspection. Got all small engine out and ran all equipment and made sure they were all topped off.

On Monday March 4<sup>th</sup>, 2024 the new fulltime staff has started. Aiden Ciha will be going through training for the month.

Sincerely,

Lieutenant Jason Butzine Waterloo Fire Department 900 Industrial Ln. Waterloo WI 53594 920-478-2535 1lt@waterloowi.us

In the month of February WLOO worked on editing projects that were uploaded to YouTube. I took inventory of equipment and did a quality check. All equipment is working well. I contacted Paradiddles for a review of our project. Paradiddles rep stated that traffic picked up because of video ads and that they would highly recommend any business to work with us for content creation. The Waterloo Booster Club agreed to accept our donation. I spoke with Gabe Haberkorn about a series revolving around Music in the park and I'm looking forward to building on the idea. All station activities are operating at satisfactory levels.
